

## THE HEART OF A GLOBAL CAMPUS

The IUPUI Office of International Affairs (OIA) champions international education and advances global teaching, research, and service. We support and collaborate with faculty, staff, and students as we advance internationalization at IUPUI.

**IUPUI Campus Strategic  
Plan Goal #8:**

***Strengthen  
Internationalization  
Efforts***

## Study Abroad

Approximately 600 students per year from across all majors and disciplines participate in study abroad, a transformative learning experience.

The Study Abroad office works with faculty and staff in units across campus to develop and administer programs and provides direct support to students from pre-departure to their re-entry stateside.

# IUPUI OFFICE OF INTERNATIONAL AFFAIRS

## International Partnerships

International partnerships and initiatives provide opportunities for IUPUI faculty, staff, and students to study, teach, conduct research, and actively engage around the world. These partnerships range widely in size and scope and serve to deepen international relationships and create synergies across campus.

### **IU GLOBAL GATEWAY OFFICES**

- ASEAN (Bangkok, Thailand)
- China (Beijing)
- Europe (Berlin, Germany)
- India (New Delhi)
- Mexico (Mexico City)

## Curriculum Internationalization

Global learning is essential for all IUPUI students. The Office of International Affairs works with faculty, schools, and administrators across campus to inform and facilitate curricular and co-curricular opportunities for global learning including research collaborations, virtual exchange, and more.

## International Admissions

International Admissions manages admissions and undergraduate recruitment for international students across IUPUI. This team provides support for schools including international credentials analysis, dual degree programs, and more.

## International Student and Scholar Services

International students and scholars make IUPUI a stronger and more diverse campus, and the Office of International Affairs works to ensure their successful transition and inclusion in campus life.

International student and scholar services include visa advising and programs that assist with adjustment to academics and life in the United States.

### **SUSTAINABLE DEVELOPMENT GOALS**

The United Nation's 17 Sustainable Development Goals and the 2030 agenda for global transformation are a strategic cornerstone of IUPUI campus internationalization. Universities have a critical role to play in achieving the SDGs with a focus on interdisciplinary and solution-oriented opportunities for developing curriculum, partnerships, and research agendas. OIA can help you connect with faculty around the world and on campus to further your teaching, research or service around the SDGs.

**Engaging the world *through* education *and* partnership**

## Global Learning for All

Now more than ever OIA is committed to providing global learning experiences to all students, no matter what they study or where they are. Here are a few of OIA's resources to support faculty in this work.

### **DIMENSIONS of GLOBAL LEARNING**

The IUPUI Dimensions of Global Learning are designed as a tool for faculty, staff, and administrators to help them develop more intentionally global and intercultural learning experiences across the curriculum and co-curriculum.

Find teaching examples and resources on our website.

### **GLOBAL VOICES**

Through the Global Voices Speakers Program, IUPUI faculty, staff, and community groups can request one or more international students to share their experiences and perspectives with a class or community group.

### **VIRTUAL EXCHANGE**

Faculty can bring global perspectives into classes by connecting virtually. OIA can assist with finding these virtual connections and you can request the Global Crossroads, a video-conferencing classroom, offered with support to all IUPUI schools.

### **& MORE**

Connect with OIA for more information if you are seeking support for your global research or any other international initiatives.

## GLOBAL CAMPUS BY THE NUMBERS

**1,850  
international  
students**

**10% of IUPUI  
graduates  
studied  
abroad**

**140  
countries  
represented**

**730+  
international  
scholars**

From 2019-20 academic year
